Ranger[®]

Automatic Aboveground Pool Cleaner

BARACUDA[®]

The World's Simplest Automatic Pool Cleaners

Ranger®

Extra Large Wheel Deflector— Helps the Ranger from getting caught on steps, ladders or in corners so it can keep on cleaning your pool.

Diaphragm (inside)—The Ranger's one operational moving part. No gears, wheels or flappers means simple operation and maintenance.

Hyper Disc—Allows the Ranger to glide effortlessly along the bottom of your pool, up the sides and around steps cleaning your whole pool.

- The Ranger is an affordable, dependable automatic pool cleaner that will thoroughly clean your aboveground pool—removing dirt, debris, bugs, twigs, leaves and even pebbles—and requires no extra plumbing and incurs no additional energy cost.
- Ranger installs in minutes. Since it's pre-assembled in the box, just attach the hose. No tools or special plumbing are required.

- Flowkeeper™ Valve with Insta-Skim Compact self-adjusting flow control valve automatically regulates water flow, ensuring peak performance.

- Ranger is quieter. Other cleaners make an annoying flapper or hammer noise. The Ranger was built to work quickly, effectively and quietly.

- 1 Year Limited Warranty against manufacturing defects and wear and tear. Even the hoses are covered.
